

We do more than building buildings.
We're building *solutions.*

INSTITUTIONAL – COMMUNITY

MANATEE OBSERVATION AND EDUCATION CENTER

FORT PIERCE

Scope and Responsibilities:

Working with Richard K. Davis Construction Corporation gave Main Street Fort Pierce the help it needed budgeting, designing and building its second redevelopment building project, the Manatee Observation and Education Center. Partially funded by the Florida Inland Navigation District (FIND), the educational building includes a gift shop, classrooms, exhibit hall, and observation platforms. By using our In-House Crews instead of subcontracting, we maintained quality and time control over this privately funded project.

Date of completion:
June 1996

Total square footage:
4,774
