

## HEATHCOTE BOTANICAL GARDENS BONSAI PAVILION

FORT PIERCE

### Scope and Responsibilities:

The Bonsai Education Pavilion is an ornate structure for outdoor gathering within the largest public display of tropical bonsai in the United States. Its design holds an oriental flair, painstakingly crafted of dimensional pine timbers by master carpenters under Richard K. Davis Construction's employ. A pagoda to house the irrigation pumps/electrical panels and entrance gates into the exhibit were also constructed with architectural detailing to compliment the centerpiece Pavilion structure.

### Date of completion:

May 2011

### Total square footage:

3600 Building

### Contact:

**Cris Adams**  
*President*

"This unique structure, where Florida Cracker meets Japan, is a tribute to carpentry talent not often seen these days, reflecting the style and history of the orient and incorporating the flavor of South Florida."

### Design Partners:

**Moor & Associates**  
*Architect*
