## MANUFACTURING

### WARREN HEIM CORPORATION

### FORT PIERCE

**Date Of Completion:** May 1987  
**Total Square Footage:** 5,795

**Contact:** Warren Heim, President  
"My compliments on our building one year later – it is a study in excellence...I am proud of our building you built and want to be included in your fervent fan club."

#### SCOPE AND RESPONSIBILITIES:

When this manufacturing firm relocated its operation to Fort Pierce in 1987, they turned to the **Design/Build Service** of Richard K. Davis Construction Corporation to handle construction of their new facility. The new 5,795 square foot building, completed in May 1987, uses a **Butler® Building System** and MR-24 Standing Seam Metal Roof with continuous fascia. The administrative entry to the company's canvas product manufacturing and sales office features cantilevered concrete columns and beams accented by cedar lattice covered wall panels with climbing jasmine.

#### DESIGN PARTNERS:

Alvah Hardy II  
Architect
