"It seems to me that one of R.K. Davis' strengths is hiring and keeping outstanding employees."

SCOPE AND RESPONSIBILITIES:

Fort Pierce-based Harbor Federal Savings Bank turned to the Richard K. Davis Construction Corporation to build this professional office building in downtown Fort Pierce. The ground floor houses a branch of the bank, with a wide variety of professional businesses occupying the rest of the building. One of the first private investments in the redevelopment of the downtown area, this project set the tone for future downtown development. Harbor Federal's signature blue architectural metal roof caps the structure, giving it a distinctive look.
