## INSTITUTIONAL - WORSHIP

### FIRST UNITED METHODIST CHURCH

### PORT ST. LUCIE

**Date Of Completion:** January 12, 2007

**Total Square Footage:** 16,420

**Contact:** Gary Stannis, Building Committee Chair  
"I watched workers take responsibility and rework things that I thought were acceptable but that they knew Doug would not accept. The employees of RK Davis are a reflection of Doug's faith in God and his fellow man. They share the same beliefs and display the same pride in their workmanship."

#### SCOPE AND RESPONSIBILITIES:

Rapid growth in Port St. Lucie led to First United Methodist Church expanding its services for its diverse congregation. A new facility was centrally located on the existing church campus where it sets the architectural and aesthetic standard for the prominent Prima Vista frontage and future upgrades to existing structures. Ministry use includes eight spacious classrooms, a sanctuary/vestibule with capacity for 670, and all administrative offices. Exposed timber roof framing, ornamental aluminum accents and standing seam metal roofing make this building the focal feature it was designed to be.

#### DESIGN PARTNERS:

Edlund, Dritenbas, Binkley Architects  
and Associates, PA  
Architect

Culpepper & Terpening, Inc  
Civil Engineer

Thomas Lucido & Associates  
Landscape Architect
